Dear Mr Newell -

Your address has been kindly given to me by Mr Marshall of the Metr Museum of New York.

I wonder if You would have any interest in a collection of Korean Coins - amounting to over 2 thousand different specimens of copper & cupreous. As You know the Korean currency mostly copper was recalled by the Japanese, and does not exist anymore -

Besides the copper specimens I have the entire silver collection amounting only to 8 different specimens of dollars, and smaller coins.

If You so like I may send You more particulars and You could ask Mr Marshall to inspect it.

Yours Sincerely

D Ecorsei

Enclosing my card.
